

CARPET DYE

COLOURS: DOESKIN, KHAKI, DOVE GRAY, LIGHT GRAY, SILVER METALLIC, GRAY, CARBON GRAY, DARK GRAY, CHARCOAL GRAY, BLACK

DESCRIPTION AND PRODUCT BENEFITS:

These dyes come in over 30 colours, matched to O.E.M. standards. Use to restore automotive carpet, vinyl and plastic. Specially formulated to leave carpet and vinyl soft and flexible, with a permanent coating that will not crack, split or rub off. For accurate colour matching, be sure to request a dye chart from your Auto Valet distributor.

DIRECTIONS OF USE AND APPLICATION:

1. Prepare the surface by removing any dirt, silicone, grease and grime. 2. Rinse with clean water and dry thoroughly with a clean cloth before refinishing. Protect adjacent surfaces from overspray. Use at room temperature (20°C) for best operation. 3. Shake can for 2 minutes after ball within starts to rattle. Repeat for 10 seconds after each minute of use. Test spray on inconspicuous area or a scrap piece to verify compatibility. 4. For a professional finish, spray 10 to 25 cm from surface in a sweeping motion. Avoid runs and drips by applying several light coats rather than one heavy coat. Allow at least 5 minutes between coats if required. 5. Clean spray valve immediately after use – turn can upside down and spray until clear. If spray button becomes clogged, pull off and clean. Do Not stick pins or wire into the can opening. 6. Replace spray button with valve opening pointing away from you.

PRECAUTIONS:

Extremely Flammable. Keep away from open flame or sources of ignition. Do not burn, incinerate or puncture container and keep away from temperatures above 50°C.

HEALTH & SAFETY INFORMATION

For further information on the safe handling, storage and precautions for use of this product, consult the Safety Data Sheet. Keep out of reach of children.

DISCLAIMER:

As the actual conditions of use are out of our control no liability is accepted for any loss or damage caused directly or indirectly through the use of our products. Intending users should satisfy themselves, by carrying out appropriate tests, as to the suitability of this product for any particular purpose.

TYPICAL DATA

APPEARANCE: Aerosols of varying colour.

SPECIFIC GRAVITY: ~0.83 g/ml

ODOUR: Solvent

SOLUBILITY: Insoluble in water.

% NON-VOLATILE: ~ 47%

FLASH POINT: -97°C

AVAILABLE SIZES:

AEROSOL - 319g
